## INVESTMENT MANAGER

KIS Capital Partners is a boutique absolute return fund manager based in Sydney, Australia with an Asia ex Japan trading focus. We believe that an absolute return fund should be risk and performance focused with strong attention to investment differentiation. Absolute return funds should not be asset gatherers. We invest alongside our clients in liquid and transparent markets with a focus on pragmatic and vigilant risk management.

## FUND OBJECTIVE

The KIS Asia Long Short Fund is a catalyst focused fund whose objective is to generate absolute returns with low volatility and correlation to other asset classes. Trade selection and portfolio management are based on three distinct principals of: Liquidity, Transparency and Risk Management. KIS Capital looks to build a portfolio of 'winning' ideas with an identifiable and imminent catalyst and hedge unwanted market risk.

## INVESTMENT PHILOSOPHY

We believe financial markets will tend towards equilibrium over the long term; however over the short to medium term, inefficiencies will create mispricing. We seek to identify, react quickly and take advantage of these situations when we identify catalysts to support the closing of this mispricing. We believe Equities as an asset class provides the opportunity to generate alpha on the back of inefficiencies that exist due to the diversity of market participants pursuing differing agendas. In our opinion investors approach their investment decisions with a bias based upon fundamentally incorrect analysis.
